43 CFR 3600 – Mineral Materials

### Mining Claim Waiver Requested for Mineral Materials Use

Your organization is a claimant for two active association placer claims near Pavant Butte in Millard County, Utah. The two claims are Black Sand # 36-11, and Black Sand # 37-11, Lead Mining Claim file UMC411984. A mineral materials operator has requested a sale of volcanic cinders from the area of these two placer mining claims. Under the Code of Federal Regulations (CFRs), in 43 CFR § 3601.14, volcanic cinders are normally classified as “common variety” mineral materials: “Mineral materials means, but is not limited to, petrified wood and common varieties of sand, stone, gravel, pumice, pumicite, cinders, and clay.”

The Volcanic Cinders Negotiated Sale (Pending), BLM case file UTU-89052, is located in W½ of the SW quadrant of Section 31, Township 19 South, Range 06 West, Salt Lake Meridian. Please refer to this BLM case file number in future correspondence regarding this matter.

Under the Code of Federal Regulations (CFR) in 43 CFR § 3601.14, the BLM may sell mineral materials from unpatented mining claims. The BLM issues non-competitive sales for mineral materials to private entities for periods of no more than five (5) years, as specified under 43 CFR § 3602.34, excluding any one-year contract extension granted under authority of 43 CFR § 3602.27, and any period that the BLM may authorize for removal of equipment and improvements by the mineral materials operator under authority of 43 CFR § 3601.52.

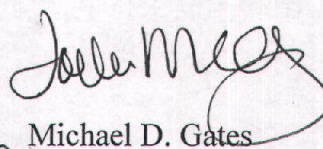

As specified in 43 CFR § 3601.14(b), the BLM asks mining claimants for a waiver before disposing of mineral materials from a claim. If you do not wish to sign the form, the BLM will ascertain that the disposal of the mineral materials is not detrimental to the public interest.

Please complete the enclosed mining claim waiver document and return it to:

Mr. Mike Gates  
Field Manager  
Bureau of Land Management  
Fillmore Field Office  
95 East 500 North  
Fillmore, UT 84631

If you have any questions, please contact Duane Bays, Fillmore Field Office (FFO) Natural Resource Specialist, at (435) 743-3115, or Jerry Mansfield, FFO Geologist, at (435) 743-3125.

Sincerely,

Acting  
for Michael D. Gates  
Field Manager
